SAN FRANCISCO and PALO ALTO, CA – September 15, 2020 – Opendoor Labs Inc. (“Opendoor” or the “Company”), the pioneer and market leader in iBuying, has entered into a definitive business combination agreement with Social Capital Hedosophia Holdings Corp. II (NYSE: IPOB) (“SCH”), a publicly traded special purpose acquisition company, to bring public a leading digital platform for residential real estate.

Company Overview

Founded in 2014, Opendoor has reinvented the real estate transaction, offering an on-demand, digital experience to buy and sell a home. Opendoor enables homeowners to sell and buy online in a few taps of a button, providing greater simplicity, certainty and convenience than ever before. Since its founding, the Company has served over 80,000 customers and sold over \$10 billion of homes. In 2019, the company sold more than 18,000 homes, generating \$4.7 billion in revenue.

Residential real estate remains the largest, undisrupted market in the U.S. with \$1.6 trillion in annual home sales and less than one percent online penetration. For consumers, the current process of buying or selling a home is complex, uncertain, time consuming and offline. Opendoor, as the innovator and market leader in iBuying, streamlines the transaction and brings the end-to-end experience online. Homeowners can go online to request and accept an offer, select their preferred closing date, sign and close. This collapses the entire house selling process into a few simple steps and removes up to 100 days of hassle and uncertainty. Home buyers can download the Opendoor app, tour and visit homes instantly with self-tours, get financing at competitive rates, and make an offer, all with just a mobile device. Collectively, Opendoor has built a simple, elegant, on-demand buying and selling experience.

The shift from offline to online consumption continues to accelerate, driving increased customer awareness, adoption and growth. Consumers are prioritizing safety, demanding digital experiences, moving out of dense areas and searching for more space to work from home. These trends create significant tailwinds for Opendoor, whose mission is to empower people with the freedom to move.

Opendoor currently operates in 21 markets across the U.S., including cities such as Phoenix, Dallas-Fort Worth, Raleigh-Durham, Atlanta and Orlando. Given the demand for a digital way to buy and sell a home and the much needed digitization of services around the home, Opendoor plans to grow market share in existing markets, expand to new markets and launch new products that make real estate transactions even more seamless.

The Company's management team, led by Founder and CEO Eric Wu, will continue to lead Opendoor. SCH's Director, Adam Bain (former Chief Operating Officer of Twitter), will join the merged company's Board of Directors upon completion of the transaction.

Management Comments

Eric Wu, Founder and CEO of Opendoor, said:

"We founded Opendoor to make it simple and instant to buy and sell a home, to delight customers and make their lives less stressful, and to build an iconic, once in a generation company. This is one of many milestones towards our mission and will help us accelerate the path towards building the digital one-stop-shop to move. I am grateful for the continued support from my teammates and shareholders and most thankful for the tens of thousands – and I hope soon to be hundreds of thousands – of families, couples and individuals that trust Opendoor with the largest financial decision of their life. We are energized by the opportunity to make our online, streamlined experience available to millions of homeowners every day."

Chamath Palihapitiya, Founder and CEO of Social Capital Hedosophia II, said:

"We created the IPO 2.0 platform to identify and partner with iconic technology companies with proven management teams and assist in their transition to the public markets. Opendoor perfectly embodies this vision. The Company is transforming the \$1.6 trillion residential real estate market by combining a superior user experience, streamlined operations and machine learning to create a seamless digital experience. We are excited to work with Eric and the supremely talented Opendoor team to unlock home ownership for millions of Americans."

Transaction Overview

On September 15, 2020, SCH (NYSE: IPOB.U) entered into a definitive agreement to combine with Opendoor through a combination of stock and cash financing. The business combination values Opendoor at an enterprise value of \$4.8 billion, representing 1.0x 2019 revenue.

The transaction is expected to deliver up to \$1.0 billion of gross proceeds, including the contribution of up to \$414 million of cash held in SCH's trust account from its initial public offering in April 2020. New investors to Opendoor via additional PIPE contributions include funds and accounts managed by BlackRock and Healthcare of Ontario Pension Plan (HOOPP). Existing Opendoor shareholders have agreed to roll 100 percent of their equity into the new company. Upon completion of the transaction, Opendoor expects to have up to \$1.5 billion in cash on its balance sheet to fund operations and support new and existing growth initiatives. All references to cash on the balance sheet, available cash from the trust account and retained transaction proceeds are subject to any redemptions by the public shareholders of SCH and payment of transaction expenses.

Use of Non-GAAP Financial Metrics

This presentation includes certain non-GAAP financial measures (including on a forward-looking basis) such as Adjusted Gross Profit, Contribution Profit, Adjusted EBITDA and Adjusted Net Income. Opendoor defines Adjusted Gross Margin as GAAP Gross Profit less Net Impairment, Contribution Profit defined as GAAP Gross Profit less selling and holding costs associated with the sale of a home, Adjusted EBITDA defined as net income (loss), adjusted for interest expense, interest income, income taxes, depreciation and amortization and Adjusted Net Income defined as GAAP Net Income less Stock Based Compensation, Warrant Expense, Net Impairment, Intangible Amortization Expense, Restructuring costs and Other. These non-GAAP measures are an addition, and not a substitute for or superior to measures of financial performance prepared in accordance with GAAP and should not be considered as an alternative to net income, operating income or any other performance measures derived in accordance with GAAP. Reconciliations of non-GAAP measures to their most directly comparable GAAP counterparts are included in the Appendix to this presentation.

Opendoor believes that these non-GAAP measures of financial results (including on a forward-looking basis) provide useful supplemental information to investors about Opendoor. Opendoor's management uses forward looking non-GAAP measures to evaluate Opendoor's projected financial and operating performance. However, there are a number of limitations related to the use of these non-GAAP measures and their nearest GAAP equivalents. For example other companies may calculate non-GAAP measures differently, or may use other measures to calculate their financial performance, and therefore Opendoor's non-GAAP measures may not be directly comparable to similarly titled measures of other companies.

Forward-Looking Statements

Certain statements in this presentation may constitute "forward-looking statements" within the meaning of the federal securities laws. Forward-looking statements include, but are not limited to, statements regarding Social Capital's or Opendoor's expectations, hopes, beliefs, intentions or strategies regarding the future. In addition, any statements that refer to projections, forecasts or other characterizations of future events or circumstances, including any underlying assumptions, are forward-looking statements. The words "anticipate," "believe," "continue," "could," "estimate," "expect," "intend," "may," "might," "plan," "possible," "potential," "predict," "project," "should," "stive," "would" and similar expressions may identify forward-looking statements, but the absence of these words does not mean that a statement is not forward-looking. Forward-looking statements are predictions, projections and other statements about future events that are based on current expectations and assumptions and, as a result, are subject to risks and uncertainties. You should carefully consider the risks and uncertainties described in the "Risk Factors" section of Social Capital's registration statement on Form S-1, the proxy statement/prospectus on Form S-4 relating to the business combination, which is expected to be filed by Social Capital with the Securities and Exchange Commission (the "SEC") and other documents filed by Social Capital from time to time with the SEC. These filings identify and address other important risks and uncertainties that could cause actual events and results to differ materially from those contained in the forward-looking statements. Forward-looking statements speak only as of the date they are made. Readers are cautioned not to put undue reliance on forward-looking statements, and Social Capital and Opendoor assume no obligation and do not intend to update or revise these forward-looking statements, whether as a result of new information, future events, or otherwise. Neither Social Capital nor Opendoor gives any assurance that either Social Capital or Opendoor will achieve its expectations.

Use of Projections

The financial projections, estimates and targets in this presentation are forward-looking statements that are based on assumptions that are inherently subject to significant uncertainties and contingencies, many of which are beyond Social Capital's and Opendoor's control. While all financial projections, estimates and targets are necessarily speculative, Social Capital and Opendoor believe that the preparation of prospective financial information involves increasingly higher levels of uncertainty the further out the projection, estimate or target extends from the date of preparation. The assumptions and estimates underlying the projected, expected or target results are inherently uncertain and are subject to a wide variety of significant business, economic and competitive risks and uncertainties that could cause actual results to differ materially from those contained in the financial projections, estimates and targets. The inclusion of financial projections, estimates and targets in this presentation should not be regarded as an indication that Social Capital and Opendoor, or their representatives, considered or consider the financial projections, estimates and targets to be a reliable prediction of future events.
